EDUCATION

Sardar Patel Institute of Technology

Bachelor of Technology in Computer Engineering (CGPA - 8.53)

Mumbai, India

Aug. 2021 – May 2025

TECHNICAL SKILLS

Languages: Java, Python, SQL, JavaScript, HTML/CSS

Libraries and Frameworks: TensorFlow, PyTorch, Scikit-Learn, Keras, NumPy, Pandas, Django, Flask, Next.js, React.js

Databases: MongoDB, Prisma, Firebase, PostgreSQL, SQLite

Development Tools: Visual Studio Code, Google Workspace, WordPress, Microsoft Office, Anaconda

INTERNSHIP EXPERIENCE

Research Intern

Jan. 2024 – June 2024

Indian Institute of Technology, Bombay

Mumbai, India

- Led a team of 3 to **analyze 10+ component relationships** in a power systems supply network, **improving operational efficiency by 15%**.
- Designed a scalable NoSQL database schema for **1 million+ records**, **enhancing query performance by 20%** and enabling real-time data management.
- Implemented MongoDB pipelines for real-time monitoring, **reducing error detection time by 30%**, and developed a secure role-based access system with a **99% recovery success rate**.

Cloud Computing Intern

July 2023 – August 2023

Academor Edutech (Online Mode)

Mumbai, India

- Deployed 7 projects** across AWS and GCP using EC2 and Google App Engine, optimizing performance and scalability.
- Gained experience in setting up virtual machines, automating deployments, and using platform-specific tools, resulting in a **10% improvement in deployment efficiency**.

Teaching Assistant (under Dr. Sudhir Dhage)

Jan. 2024 – May 2024

Sardar Patel Institute of Technology

Mumbai, India

- Assisted in conducting weekly lab sessions for **20+ students** in Distributed Computing, clarifying concepts through hands-on guidance.
- Reviewed and provided constructive feedback on lab submissions, helping improve student performance and engagement over the semester.

PROJECTS

WaveSplit (Enhanced Audio Denoiser) | TensorFlow, Librosa, NumPy, Pandas, PyTorch, Scipy

Feb. 2024 – Present

- Developed an **advanced NVIDIA Clean-UNet** audio denoising model with **adaptive SNR processing** and **perceptual enhancement**.
- Achieved **+2.3 dB SNR improvement** and **+0.21 PESQ score**, demonstrating significant performance gains over base model. (Research Paper publication in process)

DeepShield(Deepfake Detection System) | Flask, Streamlit, TensorFlow, OpenCV, Librosa

Feb. 2024 – Aug. 2024

- Achieved **96.13% precision** in deepfake detection using a modular framework integrating advanced audio and visual analysis methods.
- Developed **weighted average scoring system** combining audio, sentiment, and frame-by-frame image analysis.

Learnify(AI Learning Platform) | React, Django, TensorFlow, PyTorch, PostgreSQL, WebRTC

Feb. 2024 – May 2024

- Developed **AI-driven personalized learning** platform with text-to-comic converters, summarizers, and **sign language generation**.
- Integrated **code editor**, virtual conferencing, and comprehensive dashboard analytics for K-12 students.

ACHIEVEMENTS & LEADERSHIP

- Head of Finance**, IEEE S.P.I.T. – Managed budgets exceeding 2L for 20+ tech and cultural events, coordinating with 5+ departments and ensuring cost-effective execution.
- Hackathon Wins** – 1st place, Aeravat AI Hackathon(deepfake detection); 3rd place, Devopia AI Hackathon(edtech).
- Open Source Contributor** – Contributed bug fixes and enhancements to libraries including **pandas**, **scipy**, and **scikit-learn**, with accepted PRs improving usability and documentation.
